-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claims 10-16 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fournier (3,818,911) in view of Yoon (5,439,457).

With respect to claims 10 and 12, Fournier discloses all aspects of the claimed invention with the exception of the disc-like portions having diameters that increase in size toward the tip. Fournier discloses a vaginal cleansing swab, as disclosed in column 3, lines 58-65, comprising an shaft 22 and a moisture absorbent end piece 17 positioned over the first end of the shaft 22, as shown in figure 6. The end piece 17 comprises a dome-shaped tip and three projecting disc-like portions 24, as shown in figure 6.

Yoon discloses a cleansing swab having disc-like portions of different diameters, the diameters increasing in size toward the tip of the swab, as shown in figure 18. Increasing the diameter towards the tip of the swab provides the swab with advantageous insertion and decreased leakage, as disclosed in column 9, lines 46-52.

Art Unit: 3761

It would therefore be obvious to one of ordinary skill in the art at the time of invention to increase the diameter of the disc-like portions of Fournier toward the tip of the swab, as taught by Yoon, to provide the swab with advantageous insertion and decreased leakage.

With respect to claims 11 and 13, Fournier discloses the second end of the shaft 22 is offset at an angle from the longitudinal axis, as shown in figure 10.

With respect to claims 14-16, Fournier discloses separation areas, shown as indents between projecting disc-like portions 24 in figure 6. The separation areas have a smaller diameter than the disc-like portions, as shown in figure 6, and are comprised of moisture absorbent material, as disclosed in column 2, lines 1-4.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3761

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
